

Product Selection

1 MAKE USE OF THE GUIDELINES

Follow recommended Bicycle Parking Provisions

With all levels of government promoting cycling as an alternative transport mode, guidelines have been issued outlining recommended bicycle parking provision rates for various residential, commercial and public buildings.

Securabike suggests you check with the various government-recommended or mandatory requirements for bicycle parking provisions. In certain applications it may also be advisable to consider installing CCTV to monitor security.

Hitching Rails

2 CONSULT PROFESSIONALS

Get free design and security advice

Too often we encounter cases where a single style of parking facility has been installed when two or three styles offering different security levels would have better catered for the needs of a greater number of cyclists. Installing inadequate or poorly designed bicycle parking often leads to cyclists' frustration and the facilities being under-utilised or not used at all.

Horizontal & Vertical Racks

3 CHOOSE RIGHT

Securabike's range of bicycle parking products is the most comprehensive available in Australia.

Once you have considered Securabike's advice on the provision for bicycle parking, as well as the guidelines for designing end-of-journey facilities, the task of product selection should now be a lot easier.
