

Lockers

BVLH1

Vertical Locker

This vertical bicycle locker features the smallest footprint of all bicycle lockers and is best suited for sites requiring the highest degree of storage density. The bicycle is suspended on an internal wheel hook with two additional hooks that can be used for helmets or clothing.

A sturdy internal frame with galvanised sheeting is further strengthened through the use of steel corner brackets. This locker features a cast metal handle operating a 3-point locking system (keyed to differ) as standard. A selected range of alternative locking options available upon request.

Creased roof panel to provide strength and fall for water run-off (stiffener channel under roof panel)

Optional stencil signage

Optional T handle provides improved vandal resistance and allows master keying

Three point secure locking
